Portfolio

PROFILE SUMMARY

Machine Learning and Data Science graduate (Bachelor of Science in Computer Science and Engineering) — Computer Vision, Deep Learning, full-stack engineering. 3 years founding and operating 2 e-commerce brands plus current Business-to-Business/Business-to-Consumer sales role. A builder at the intersection of AI and business, from Convolutional Neural Network classifiers to a production-ready WordPress plugin.

KEY ACHIEVEMENTS

- BDT 8,00,000+ closed sales within first month as remote Sales Representative
- 2 e-commerce brands founded & scaled from concept to daily operations since 2023
- 2,700+ customers served with 500+ repeat customers across both brands
- BDT 2,50,000 (2.5 lacs) profit generated within the first year of operations
- 10 technical projects shipped end-to-end — CNN classifiers to production WordPress plugin
- 1 production-ready WordPress/WooCommerce plugin built and fully tested for deployment

CORE SKILLS

Python · PyTorch · CNN · Computer Vision · Deep Learning · Scikit-learn · Power BI · Excel · React · TypeScript · AJAX · Technical Documentation · Reporting · P&L Management · B2B/B2C Sales · Sales Strategy · Business Operations · Business Ownership & Scaling · Data-Driven Pricing · Supplier Negotiation · Client Relations · CRM · Cisco Router Configuration

EXPERIENCE

Jul 2026 – Present
Remote

Sales Representative (Remote) — Istanbul Hotel and Resort Limited

- Closed 2 deals worth BDT 8,00,000 within first month
- Managed full client lifecycle: outreach → close
- Resolved objections, tailored pitches, boosted conversion
- Coordinated multi-timezone international sales cycle

Sep 2023 – Present
Dhaka, BD

Founder & Owner — **Purple Daze & Arctic Daze** (Self-Employed)

- Founded, scaled 2 e-commerce brands: sourcing, supplier negotiation, fulfillment
- Reached 2,700+ customers with a 500+ strong repeat-buyer base; generated BDT 2,50,000 profit in year one
- Built Power BI/Excel dashboards for real-time P&L tracking
- Applied demand analytics to pricing/purchasing decisions
- Developed storefronts in React, TypeScript, and Tailwind CSS
- Led team; owned client negotiations end-to-end

PROJECTS

Tomato Leaf Disease Classification — PyTorch, CNN, Grad-CAM

Built a CNN image classifier with Grad-CAM explainability, delivering an interpretable diagnostic model for tomato leaf disease detection.

Wall Crack Detection — Python, CNN, Image Processing

Built a CNN feature-extraction pipeline for structural defect detection, producing a reproducible research pipeline with documented findings.

Rice Varieties Classification — Python, Scikit-learn

Built a multi-class ML classifier with full preprocessing and confusion-matrix validation for a reusable evaluation pipeline.

WooCommerce Purchase Notifications — PHP, WordPress, WooCommerce, AJAX

Engineered a production-ready WordPress plugin for real-time purchase notifications with AJAX, caching, and HPOS compatibility.

Smart Vehicle Parking Finder with Dynamic Pricing — HTML, CSS, JavaScript

Built a real-time parking search app with occupancy-based dynamic pricing, demonstrating applied full-stack development and pricing logic.

Network Simulation Projects — Cisco Packet Tracer

Designed and simulated enterprise LAN/WAN topologies with VLAN, RIP/OSPF routing, and ACLs to validate networking fundamentals.

SKILLS

AI/ML	PyTorch, CNN, Grad-CAM, Scikit-learn, Model Training & Evaluation
Data/BI	Power BI, Excel, Data Preprocessing, Statistical Analysis
Dev	Python, JS, TypeScript, PHP, React, Tailwind CSS, WordPress, WooCommerce, AJAX, Vite
Tools	Git, GitHub, Cisco Packet Tracer, VLAN/OSPF/ACL, MS Office, Google Workspace
Languages	Bengali (Native), English (Advanced Reading/Writing, Intermediate Speaking)

CERTIFICATIONS

Intro to Python Programming — Bohubrihi, Shikho Technologies | Aug 2025

HTML5, CSS3 & Bootstrap 4 — Bohubrihi, Shikho Technologies | Jun 2026

Power BI Dashboard Mastery — Academy of Business Professionals | May 2026

Intro to JavaScript — Bohubrihi, Shikho Technologies | Jul 2026

MS Excel Professional Mastery — Mastery PLC | Jun 2026

In Progress

- Cisco & MikroTik Networking
- Data Science & ML with Python
- AI & ML Bootcamp
- Full Stack Vibe Coding using AI

EDUCATION

Jun 2020 – 2026
Dhaka, BD

BSc in Computer Science and Engineering (Data Science)

East West University, CGPA 3.01/4.00

2017 – 2019
Dhaka, BD

HSC – Science

Mohammadpur Preparatory Higher Secondary School, GPA 4.08/5.00
